

CUE YOU™ - Setting Up One Touch Emergency Calling

To set up the One Touch Emergency Calling feature, go to 'Manage Device'. Click the link 'SET UP ONE TOUCH EMERGENCY CALLING' on the screen, just beneath the heading.

Next, open *Safari* on the iPhone, and the device should automatically show the information (above) on its screen. Fill in the name of the Emergency Contact, as well as the phone number, then click 'Create Caller'. A caller box will appear.

Click 'Cancel'. On the default, gray toolbar at the bottom of the screen, tap the center icon. A list of options appears. Choose 'Add to Home Screen' which will add the One Touch Emergency Caller button (a red square with bright yellow exclamation mark) to the iPhone.
